

Now I Can[®]

GET EVERYTHING I NEED
for my insulin pump system...and more!

Medtronic

Alleviating Pain · Restoring Health · Extending Life

Achieve optimum balance and control

The U.S. Centers for Disease Control and Prevention (CDC) recommend changing your infusion set every 2 to 3 days¹.

Following the recommended guidelines, regularly changing your infusion set and reservoir can help prevent:

- Infection¹
- Unexplained highs²
- Scarring³
- Fatty tissue buildup^{4,5}

Continuous Glucose Monitoring

Knowing your glucose levels and trends is critical for your daily diabetes care. Medtronic glucose sensors enable REAL-Time continuous monitoring of your glucose levels and wirelessly transmit that information to your monitor. Frequent monitoring and A1C (average blood glucose) tests help you take care of your diabetes. Medtronic Diabetes sells all the testing supplies you'll need.*

*The American Diabetes Association recommends an A1C target of 7% or lower!**

Medtronic Glucose Sensors [®]

Designed to be used with all Medtronic Diabetes continuous glucose monitoring products.

Glucose Monitoring

OneTouch® Ultra® Test Strips

The OneTouch® Ultra® Test Strips with FastDraw™ Design make blood glucose testing fast, easy, and less painful* for anyone with diabetes. Just touch the end of the test strip to your blood sample. The test strip automatically draws up blood and makes it easy to see when there's enough blood for an accurate reading.

*Fast, less painful testing provides results in just 5 seconds and requires just a speck of blood. 50 strips per box in two 25-count vials.

Call for product number and pricing

OneTouch® UltraSoft® Lancets

OneTouch® UltraSoft® Lancets have a thin tip for less painful penetration. OneTouch® UltraSoft® Lancets can be used with OneTouch® Penlet® Plus and OneTouch® UltraSoft® Adjustable Blood Samplers from LifeScan. 100 sterile lancets.

HMS-020393	\$13.95
-------------------	----------------

OneTouch® FinePoint™ Lancets

HMS-020046 **\$13.95**

OneTouch® Penlet® Plus

The OneTouch® Penlet™ Plus provides a safe, easy way to obtain a drop of capillary blood. The device has seven depth settings, so you can manage the most comfortable depth for you. Select the most comfortable depth setting to obtain a drop of blood with this adjustable blood sampler.

HMS-010356 **\$22.95**

OneTouch® Ultra® Control Solution

OneTouch® Ultra® Control Solution can be used to test the accuracy of OneTouch® Meters and Test Strips. 1 vial.

HMS-021416 **\$12.99**

Nova Max Glucose Test Strips.

For use with Paradigm Link®, BD Logic®, and Nova Max™ monitors. 50 strips per box in two 25-count vials.

HMS-43523 **\$42.99**

BD™ Lancet Device

This depth-adjustable lancet device allows you to modify your depth setting to match your skin type for less-painful blood testing. Includes 5 depth settings for use with BD Ultra-Fine™ II, 30-gauge lancets and BD Ultra-Fine™ 33, 33-gauge lancets.

HMS-325775 **\$16.78**

BD Ultra-Fine™ 33 — 33 Gauge Lancets

These are the thinnest lancets available, making blood samples less painful. For use with the BD™ Lancet Device and the Paradigm Link® blood glucose monitor powered by BD™ Logic. 100 sterile, single-use lancets.

HMS-322057 **\$14.38**

BD Ultra-Fine™ 28 — 28 Gauge Lancets

Ultra-thin lancets for greater comfort. For use with most lancet devices, including BD™ Lancet Device; SoftTouch™, Microlet™, Penlet™, Autolet™ Lite, FreeStyle™ and Medisense®. 100 sterile, single-use lancets.

HMS-325773 **\$15.00**

BD™ Monitor 3V Batteries

For use with the Paradigm Link® and BD Logic™ blood glucose monitors. 2 batteries/pack.

HMS-DL2450 **\$8.00**

Rx As a reminder, a prescription written within the last 12 months is needed for infusion set and reservoir supplies. To ensure your order will be fulfilled in a timely manner, please provide us with a new prescription every 12 months. You or your healthcare provider may fax prescriptions to: 818-576-6496. Medicare patients fax prescriptions to 888-365-0016. Thank you.

For Emergencies

Are you as prepared as you could be for an emergency? Carry a well-stocked emergency supply kit with you wherever you go. It's the best way to manage your diabetes in the face of an unanticipated situation.

Important Note: See your Insulin Pump User Guide or www.medtronicdiabetes.com for information on preparing for high or low blood sugars.

Medical Alert

MediBand™ is an emergency medical identification system that attaches to most ordinary watchbands. These durable, lightweight bands, one in silver and one in gold, tastefully display the red universal medical alert symbol along with the word "Diabetic" and indicate that a complete medical profile wallet card is also being carried.

MediBand™ **ACC-118** **\$6.95**

For use with NovoPen® 3 insulin delivery device—30 gauge 1/8" needle. 100 count.

Glucose Tablets (50/bottle)*

Glucose Tablets contain sugar in its simplest and purest form to raise blood sugar quickly, precisely, and conveniently. Health care professionals recommend that individuals who take insulin carry glucose tablets with them at all times to treat low blood sugar reactions. Chewable tablets.

Orange Glucose Tablets **HMS-3350** **\$9.95**

Raspberry Glucose Tablets **HMS-3250** **\$9.95**

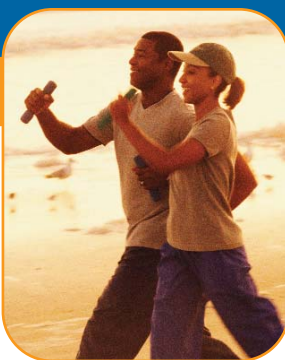

Grape Glucose Tablets **HMS-3150** **\$9.95**

*Not available for Medicare patients.

Site Care Supplies

Successful insulin pump use depends on the proper care and protection of your infusion site. The site should be changed, cleaned and prepped every **2 to 3 days** to help prevent infection and skin irritation. During exercise or in hot, humid conditions, water and perspiration can loosen your infusion set adhesive, so having the proper site care supplies on hand is essential to good health.

Important Note: If you are having trouble with your infusion site, please call the 24-Hour Product Help Line at 1-800-646-4633 and select option 1.

Skin Prep

Skin Tac™ Wipes (50 ct.)

These latex-free, hypo-allergenic wipes aid in the adhesion between skin and adhesive tape.

HMS-180 **\$19.95**

Tac Away® Adhesive Remover Wipes (50 ct.)

For complete, effective removal of adhesive residue.

HMS-181 **\$11.95**

BD™ Alcohol Swabs (100 ct.)

Thicker and softer, with 50 percent more alcohol than ordinary swabs. They provide safe, hygienic site preparation for injections, infusion sites and self-monitoring.

HMS-326895 **\$7.75**

Betadine® Antiseptic Swabs (100 ct.)

Antiseptic, bactericidal, virucidal pads that are virtually non-stinging and non-staining to skin and natural fabrics.

HMS-6419 **\$9.95**

Bard™ Protective Barrier Wipes (50 ct.)

These wipes reduce irritation caused by tapes and adhesives.

HMS-740013 **\$12.00**

Skin Prep® Wipes (50 ct.)

Recommended to provide effective skin protection and improved adhesion between skin and adhesive tape. Non-irritating formula. Individual foil-pack.

HMS-420400 **\$9.95**

Skin Prep® Non-Sting Wipes (50 ct.)

These wipes are recommended to provide effective skin protection and improved adhesion between skin and adhesive tape. Non-irritating in a non-sting formula for sensitive skin.

HMS-420600 **\$27.95**

I.V. Prep® Protective Barrier Wipes

In addition to antiseptic cleansing, these wipes can reduce skin irritation associated with adhesive removal. Can also help to improve adhesion between skin and adhesive tape.

MMT-173 **\$12.00**

Uni-Solve® Adhesive Removal Wipes

Formulated to reduce adhesive trauma to the skin by thoroughly dissolving dressing tape and adhesive residue.

HMS-402300 **\$12.00**

Mastisol® Adhesive

This clear, non-irritating and non-water soluble liquid adhesive will secure the most difficult dressings, monitor leads and IV lines over an extended period of time. 2 oz bottle.

HMS-052306 **\$22.95**

Detachol® Adhesive Remover

A gentle, non-irritating adhesive remover that can be used to remove dressings, wound closure strips, tapes, tubes, and, of course, Mastisol® Liquid Adhesive. Detachol® does not contain acetone, benzene, chloroform, or ether. 4 oz bottle.

HMS-051304 **\$7.95**

Tapes and Dressings

Polyskin™ II Transparent Dressing (100/box)

Highly permeable to oxygen and moisture vapor and provides an outstanding barrier to bacteria and fluid contaminants.

MMT-134A **\$62.95**

3M™ NEXCARE™ Tegaderm Transparent Dressing

This thin, clear sterile dressing keeps out water, dirt and germs, yet lets skin breathe. It's hypo-allergenic and can help prevent infection. Available in the following sizes:

2 3/8" x 2 3/4" – (100/box)	HMS-1624W	\$62.95
60 x 69 mm – (8 pk.)	HMS-64114	\$6.80
2 1/8" x 2 1/2" – (50 ct.)	HMS-9545HP	\$31.95
4" x 4 1/2" – (50 ct.)	HMS-9546HP	\$115.00

IV 3000™ Transparent Dressing

This transparent dressing is coated with a layer of low-allergy adhesive. It's great for covering infusion sites to minimize snagging and add extra security.

2 3/8" X 2 3/4" (100/box)	MMT-174	\$62.95
4" X 4 3/4" (50/box)	HMS-175	\$115.00

Hy-Tape®

A latex-free tape that is waterproof and washable. Adheres to wet, oily, or hairy skin with a zinc oxide adhesive that is soothing to delicate skin. 2" x 5 yd.

HMS-177 **\$7.99**

3M™ Micropore™ Surgical Tape

This latex-free, hypo-allergenic paper tape is gentle to the skin yet adheres well and leaves minimal adhesive residue upon removal.

HMS-15301 **\$2.95**

3M™ Transpore™ Surgical Tape

A transparent, perforated, hypo-allergenic plastic tape that offers strong adhesion. 1" x 10 yd.

HMS-15271 **\$2.95**

Sof-set® Adhesive Patch (50 ct.)

Classic Sof-set® tape has great holding strength. Non-sterile.

MMT-172 **\$15.00**

Insulin Pump Cases

Our insulin pump cases are discreet yet stylish, designed to fit your lifestyle without calling attention to themselves. There are insulin pump cases available to complement every facet of your life, whether you're attending a business meeting, shopping at the mall, hiking in the mountains, squeezing into a little black dress—or playing in a sandbox.

Business Series

Our business cases complement both business and formal wear—and are no bigger than a cell phone.

Contemporary Leather Case

This handsome case is made from fine leather and lined with nylon. A Velcro® flap gives instant access to the insulin pump for easy monitoring or programming when you're in a meeting or on the run. The case can be worn vertically or horizontally with the integrated swivel belt clip. Available in Black, Camel and Brown.

MiniMed Paradigm® 5 series	ACC-644 BL, BR, CA	\$29.95
MiniMed Paradigm® 7 series	ACC-744 BL, BR, CA	\$29.95
MiniMed 50X	MMT-620 BL, CA	\$29.95

Leather Wrap-around Case

Is it an insulin pump or a pager? This compact, fine leather case is designed to be worn on your belt for optimum discretion. A Velcro® flap opens for easy viewing or programming. Available in Black and Brown.

MiniMed Paradigm® 5 series	ACC-602 BL, BR	\$29.95
MiniMed Paradigm® 7 series	ACC-702 BL, BR	\$29.95
MiniMed 50X	MMT-621 BL	\$29.95

Insulin Pump Cases/Children's Series

Kids just want to be kids. That's why children with diabetes should be able to maintain the freedom to do the things that all kids love to do. These cool products allow kids with diabetes to express their freedom and individuality—and protect their insulin pumps when they're playing with friends or participating in their favorite sports.

Skins

Skins are a fun and exciting way to personalize the look of your Medtronic MiniMed Paradigm® Insulin Pump! We have many different skins to enhance the look of your insulin pump to better reflect your personality, your style, your likes.

Our high-quality skins are made of vinyl and have an adhesive side, allowing you to easily apply the skin to your insulin pump. And they leave no residue, which means you can easily remove skins and replace them with new skins as often as you like!

View our full collection and latest designs at www.medtronicdiabetes.com/skins

Carl the chameleon case and stuffed animal

It's an insulin pump case...and stuffed animal! Carl the chameleon, our lovable mascot for "skins" (adhesives with designs that are applied directly to your insulin pump), holds your insulin pump in his belly. He's perfect for cuddling while you're sleeping. The loops on his belly also allow him to be worn horizontally or vertically. 10" in length.

For all insulin pump models ACC-405 \$24.95

Colorable T-shirt

You're the artist when you color this T-shirt outlining Carl the chameleon, our lovable mascot for "skins" (adhesives with designs that are applied directly to your insulin pump). Color your T-shirt with water-based markers, wear, and then wash. The colors will wash away so you can color Carl over and over again. As the T-shirt says, "Who do you want to be Today?" Wash separately. Heavy weight material, 50% cotton 50% polyester.

Small children (size 6-8) ACC-401SM \$14.95

Medium children (size 10-12) ACC-401ME \$14.95

Large children (size 14-16) ACC-401LG \$14.95

Customizable case

Every kid loves these denim cases which can be customized just how you like. We get you started by providing 4 iron-on jewels (heart, butterfly, flower, sun) with the girls case and 4 iron-on patches (soccer ball, baseball glove, skateboard, football) with the boys case. The zipper pull is extra large so charms or keychains can be hung from it. Cases can be further designed using products from around the house or from a craft store.

For all insulin pump models

Girls ACC-150GL \$34.95

Boys ACC-150BY \$34.95

Children's MiniPack

This soft-padded mini backpack can be used a number of ways. For small children, the elasticized, adjustable straps are designed to hold the insulin pump out of reach from prying fingers. For older kids, it's perfect for holding the insulin pump safely and securely in place during those fast-moving soccer and baseball games. Available in Denim or White.

For all insulin pump models

Denim ACC-117DM \$22.95

White ACC-117WH \$22.95

Children's Tamper-Resistant Neoprene® Case

Kids will love the soft and squishy Neoprene®. And parents will love the zipper that snaps closed, keeping the insulin pump safe from tiny hands. Available in Blue or Multi-color. Case Belt accessory can be purchased separately.

For all insulin pump models

Blue ACC-222BU \$12.95

Multi-color ACC-222MU \$12.95

Case Belt

This versatile, kid-sized belt (25") is made of soft nylon. It's a perfect complement for the Tamper-Resistant Children's Neoprene® Case. Available in Black.

For all insulin pump models ACC-123BL \$8.99

Insulin Pump Cases/Casual Series

There's nothing better than a relaxing day at home, at the beach or strolling through town. We've created a line of sturdy and stylish cases that can accompany you wherever your day takes you.

Nylon Case with Optional Belt Loop Clip

Keep it simple. This sturdy, nylon case with a Velcro enclosure looks more like a key-chain holder than a case. It is soil and water-resistant and secures on a waistband or belt with a belt-clip accessory (sold separately). Available in Pink, Camo, and Black.

For all insulin pump models	ACC-202BL, CM, PK	\$12.95
Optional "Clip & Go" Belt Clip	ACC-101	\$2.99

Neoprene® Case

Go ahead. Go someplace hot and messy. This sporty case in splash-resistant Neoprene offers a protective layer of insulation. Designed to be worn on a belt. Available in Black.

For all insulin pump models	ACC-221BL	\$9.99
-----------------------------	-----------	--------

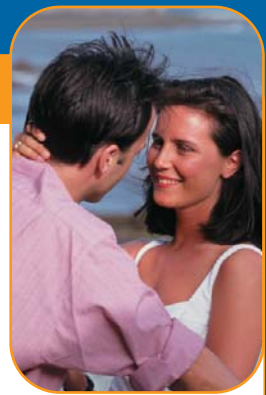

Mini Pack

This durable denim case is great for either active kids or adults who like to travel light. Now you can send your child off on a field trip knowing he or she has everything necessary for the proper diabetes management. Not only does it fit all MiniMed insulin pump models, the back zipper pocket has room for a set of keys, lunch money, and bus tokens. 4" x 6" x 2".

ACC-116	\$22.95
---------	---------

Insulin Pump Cases/Undercover Series

Did you know that your insulin pump can be worn underneath your clothing for maximum discretion? With our thigh and bra pouches, you can wear a tight dress or form-fitting gown without having to worry about someone noticing you're on an insulin pump. Now that's freedom!

Thigh/Leg Pouch

This pouch takes its nod from James Bond. It's perfect for thigh insertion sites when your wardrobe or activities restrict you from wearing your insulin pump at the waist. It's both discreet and comfortable, with soft, elasticized straps that can be altered to be alternatively worn below the knee. Made from a stretch cotton/Lycra® blend with Velcro.

For all insulin pump models		
Black	ACC-204BL	\$16.95
White	ACC-204WH	\$16.95

Waist Pouch

Wear this pouch to the gym, under your clothing, or even to bed. Wherever you wear it, it will keep your insulin pump secure. The soft pouch has elastic straps that use Velcro to fit it snugly around your waist.

For all insulin pump models		
Black	ACC-206BL	\$17.95
White	ACC-206WH	\$17.95

Bra Pouch

Just sew the Velcro tab inside your bra and you're ready to make a fashion statement. The bra pouch attaches to the Velcro tab and keeps your insulin pump discreetly out of view.

For all insulin pump models		
Black	ACC-207BL	\$12.95
White	ACC-207WH	\$12.95

Insulin Pump Cases/Sports Series

Ready to go for a hike or a run? Planning to hit the tennis court or soccer field? Maybe you're thinking of going water skiing? Whatever your game, we've got the case to help you play it. Designed with durability, comfort and strategic positioning in mind, these cases will let you be your most active self.

Sport Case

This heavy-duty, water-resistant case is ideal for outdoor activities. The rugged design in Cordura® nylon has a zippered top and can be secured to the waistband or belt with its attached clip. Available in Black.

MiniMed Paradigm® 5 series ACC-103BL \$24.95

and MiniMed 40X/50X series

MiniMed Paradigm® 7 series ACC-701 \$24.95

Sports Insulin Pump Harness

Now you can wear your insulin pump on your back when you're busy playing sports. This durable mini-pack has elasticized, adjustable straps sized for adults. Available in Black with Velcro closure.

For all insulin pump models ACC-124 \$29.95

SportGuard™ Case

Going to a pool party? Or spending the day at the beach? This hard plastic case is the perfect choice when water activities are on your agenda.

For the 50X series MMT-145 \$59.95

MiniMed Paradigm® Activity Guard

This clever device is perfect for participating in rough-and-tumble sports. The Activity Guard locks over the battery carrier and reservoir compartment for extra protection so you can play the way you want to.

Note: The Activity Guard cannot be worn with the MiniMed Paradigm® Insulin Pump Clip.

MiniMed Paradigm® 5 series MMT-632 \$4.95

MiniMed Paradigm® 7 series MMT-641 \$4.95

Clips and Holsters

Using a clip or holster is an easy way to secure your insulin pump to a waistband or belt. And they're just the thing for accommodating easy access.

MiniMed Paradigm® Insulin Pump Holster

This handy holster can be worn vertically or horizontally. Available in Charcoal.

Supply Cases

We've created supply cases that are perfect for traveling, for emergencies, or for everyday use. They're solidly built for durability and can fit a lot into a compact space. When you're on-the-go, a supply case is the perfect accessory.

aDorn Messenger Bag

This unisex bag is great for day-to-day work or school. It has many compartments so you can carry your laptop, cell phone, and other supplies. A separate pouch holds your diabetic supplies and then tucks into a specially-designed compartment. This bag even has a watertight ice pocket to keep insulin cool! Shoulder strap included. 15" x 11.5" x 4"

ACC-703BL, GY \$89.95

Supply Bag

Need a place to stash all those diabetes management supplies you need to take with you? This compact carrying case is made with nylon parachute material and has a zipper closure. Available in Black.

ACC-200 \$9.99

Travel Mate

All the organization you need in one tidy case! This durable, soil-resistant tote doubles as a personal organizer with a mesh compartment for your insulin pump manual and a label carrier on the spine for personalization. Designed in sturdy Cordura nylon with enough room for all your supplies. Available in Black. 9" x 8" x 2"

ACC-108 \$29.95

Travel Tote

This shoulder bag is perfect for travel, school or business. Designed to hold the Travel Mate (listed above), it also has inside and outside pockets and an adjustable strap for easy carrying. Available in Black. 9" x 8" x 2.5"

ACC-109 \$26.95

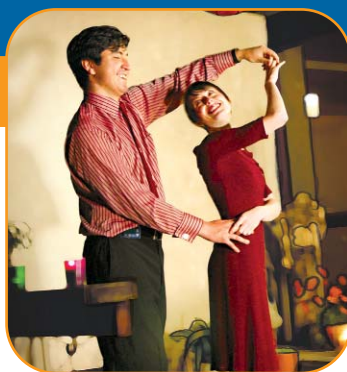

Fanny Pack

A slim-design fanny pack is a hands-free way to carry the supplies you need. It has an interior compartment that's perfect for snacks and hidden pockets for extra storage, too.

Available in Black. 8.5" x 4.5" x 2.5"
ACC-215BL \$29.95

Insulin Pump Accessories

Insulin pump accessories can help keep life simple. For instance, Medtronic Diabetes makes accessories that can allow you to give yourself insulin without ever touching the insulin pump. Or shower with your insulin pump in place when you don't feel like disconnecting. Or participate in rough-and-tumble sports without worrying about your insulin pump. In other words, the right accessories can help fit insulin pump therapy more easily into your lifestyle.

Exclusive Remote Control

Is your insulin pump out of view and you want to keep it that way? That doesn't have to interfere with your diabetes management. Our exclusive remote control allows you to deliver insulin, or suspend delivery, without looking at or touching your insulin pump. It's discreet, convenient, and easy to use. It's also perfect for small children—they won't even know you're managing their insulin!

MiniMed Paradigm® series Insulin Pumps	MMT-503NA	\$149.99
508 series Insulin Pumps	MMT-500RU	\$149.99

Shower Pak™ (30/pk.)

Want to jump in the shower without disconnecting the insulin pump? These single-use plastic pouches are designed so you can shower with your insulin pump or continuous glucose monitoring system. Wear it around your neck or hang it on the showerhead.

All insulin pump models	MMT-117	\$23.00
-------------------------	---------	---------

Therapy Management

Managing your insulin therapy is easy when you have the right tools. In addition to the practicality of a paper logbook, electronic therapy management tools can help you keep records that quickly spot trends, allowing you to adjust your therapy accordingly.

Insulin Pump Daily Journal

This daily journal gives you the space to record blood glucose, insulin, meal and exercise data so you can conveniently manage your diabetes therapy. Each journal provides space for one month of data, so stock up for the year.

HMS PLOG		\$1.50
----------	--	--------

CareLink™ Personal Therapy Management Software for Diabetes

This web-based system is designed to help you take information from all of your diabetes management tools – your insulin pump, blood glucose meter(s), and logbook – and organize it into easy-to-read charts, graphs and tables. These reports can help you and your healthcare provider discover patterns and problems that meter software and logbooks would not uncover. As a result, you are empowered to effectively maximize your therapy for greater control. To access this free software, just log on at <http://carelink.medtronicdiabetes.com>

Insulin Pump Supplies—Batteries and Reservoirs

An insulin pump consists of a pump reservoir filled with rapid-acting insulin, a small, battery-operated pump and a computer chip. Stocking up on insulin pump batteries and reservoirs is one way to ensure that your diabetes management therapy can be maintained no matter the circumstances.

Most of the cost of insulin pump supplies is covered by many insurance plans.

Insulin Pump Reservoirs [Ⓡ]

It is important to change your infusion set and reservoir every 2 to 3 days in order to prevent infection, skin irritation, and to ensure insulin potency. For your protection, we recommend using only Medtronic MiniMed brand infusion sets and reservoirs, as we cannot guarantee appropriate product operation if the insulin pump is used with reservoirs or infusion sets offered by third parties. We are not responsible for any injury or malfunction of the insulin pump that may occur in association with such use

1.8 ml MiniMed Paradigm[®] Insulin Pump Reservoir

This reservoir is custom-made for the MiniMed Paradigm[®] 5 series or 7 series Insulin Pumps and can be used with all Medtronic MiniMed Paradigm[®] infusion sets. User-filled reservoir holds up to 1.8 ml of insulin. 10/box.

MiniMed Paradigm[®] series MMT-326A \$33.00

3.0 ml MiniMed Paradigm[®] Insulin Pump Reservoir

Custom-made for Medtronic MiniMed Paradigm[®] 7 series Insulin Pumps—and can be used with all Medtronic MiniMed Paradigm[®] infusion sets. User-filled reservoir holds up to 3.0 ml of insulin. 10/box.

MiniMed Paradigm[®] series MMT-332A \$33.00

MiniMed Model 40X/50X Insulin Pump Reservoir

This reservoir, which holds up to 3.0 ml of insulin, is specially designed for use with the MiniMed 40X and 50X model series Insulin Pumps.

MiniMed 40X and 50X series MMT-103A \$33.00

MiniMed Insulin Pump Batteries

You never want to be caught without batteries for your insulin pump, so be sure to keep extra sets on hand—and carry a spare with you whether traveling the globe or simply out on the town. This kit contains three sets of three batteries (9 total). Eveready[®] 1.5 Volt, Silver Oxide Batteries #357. Can be used for 508 and earlier model MiniMed Insulin Pumps.

Insulin Pump Disposable Power Kit

Three sets of three batteries each (9 total). Eveready[®] 1.5 Volt, Silver Oxide Batteries #357.

MiniMed 40X and 50X series MMT-104 \$27.50

[Ⓡ] *As a reminder, a prescription written within the last 12 months is needed for infusion set and reservoir supplies. To ensure your order will be fulfilled in a timely manner, please provide us with a new prescription every 12 months. You or your healthcare provider may fax prescriptions to: 818-576-6496. Medicare patients fax prescriptions to 888-365-0016. Thank you.*

SERTER[™] Auto-Insertion Devices

With SERTER[™] auto-insertion devices, inserting the cannula under your skin is as easy as pushing a button. SERTER[™] devices provide virtually painless insertions and consistent insertion depth for optimal insulin absorption. And the problem of hard-to-reach insertion sites is eliminated, too. *These supplies are generally not covered by insurance.*

Quick-serter[®] Insertion Device

This insertion device should be used with Quick-set[®] infusion sets only. It provides consistent insertion depth every time for optimal insulin absorption.

MMT-395 \$24.95

Sil-serter[®] Insertion Device

The Sil-serter[®] can be used with Silhouette[®] infusion sets only. It's a spring-activated device that inserts the Silhouette[®] at the press of a button—making insertions virtually painless.

MMT-385 \$24.95

Sof-serter[®] Insertion Device

For use with Sof-set[®] infusion sets only.

MMT-300 \$24.95

Infusion Sets

Our complete line of infusion sets are easy to use and comfortable to wear. Designed for people of all different sizes and shapes, you can find a Medtronic Diabetes infusion set that's just right for you.

It is important to change your infusion set and reservoir every 2 to 3 days in order to prevent infection, skin irritation, and to ensure insulin potency. For your protection, we recommend using only Medtronic brand infusion sets and reservoirs, as we cannot guarantee appropriate product operation if the insulin pump is used with reservoirs or infusion sets offered by third parties. We are not responsible for any injury or malfunction of the insulin pump that may occur in association with such use.

The Sure-T™ Infusion Set

Sure-T™ features a 90-degree angle insertion with a 6mm fine steel needle. Additional site adhesive prevents needle dislodging. Security and simplicity for first-time insulin pump users or those with allergies to Teflon.

MiniMed Paradigm® Sure-T™

MiniMed Paradigm® model series	MMT-840	\$74.00
6mm needle/23" (58 cm) tubing (10/box)		

The Polyfin® Infusion Set

The bent-needle infusion set is another good option for people with Teflon® allergies.

MiniMed Paradigm® Polyfin® QR® with wings

MiniMed Paradigm® model series	MMT-312S	\$146.00
24" (61 cm) tubing (20/box)		
MiniMed Paradigm® model series	MMT-312L	\$146.00
42" (107 cm) tubing (20/box)		

Polyfin® QR® with wings

MiniMed 40X, 50X model series	MMT-365	\$175.00
42" (107 cm) tubing (24/box)		
MiniMed 40X, 50X model series	MMT-366	\$175.00
24" (61 cm) tubing (24/box)		

Polyfin® tubing extension set

For all insulin pump models	MMT-128	\$105.00
60" tubing (24/box)		

 As a reminder, a prescription written within the last 12 months is needed for infusion set and reservoir supplies. To ensure your order will be fulfilled in a timely manner, please provide us with a new prescription every 12 months. You or your healthcare provider may fax prescriptions to: 818-576-6496. Medicare patients fax prescriptions to 888-365-0016. Thank you.

The Sertable® Family of Infusion Sets

When used with our exclusive SERTER™ devices, Sertable® infusion sets can offer virtually painless insertions and more consistent insertion depth for optimal insulin absorption.

The Quick-set® Infusion Set

The Quick-set® infusion set, the most popular infusion set, features a soft 6 mm or 9 mm cannula that is inserted under the skin at a 90° angle. The Quick-set® offers "at-site" disconnect, built-in adhesive (no over-taping is needed), and is available in 2 tubing lengths. Works with the optional Quick-serter® (sold separately) to provide optimal insertion every time.

MiniMed Paradigm® Quick-set®

MiniMed Paradigm® model series	MMT-396	\$116.00
9 mm cannula/43" (109 cm) tubing (10/box)		
MiniMed Paradigm® model series	MMT-397	\$116.00
9 mm cannula/23" (58 cm) tubing (10/box)		
MiniMed Paradigm® model series	MMT-398	\$116.00
6 mm cannula/43" (109 cm) tubing (10/box)		
MiniMed Paradigm® model series	MMT-399	\$116.00
6 mm cannula/23" (58 cm) tubing (10/box)		

Quick-set®

MiniMed 40X, 50X model series	MMT-390	\$116.00
9 mm cannula/43" (109 cm) tubing (10/box)		
MiniMed 40X, 50X model series	MMT-391	\$116.00
6 mm cannula/43" (109 cm) tubing (10/box)		
MiniMed 40X, 50X model series	MMT-392	\$116.00
9 mm cannula/23" (58 cm) tubing (10/box)		
MiniMed 40X, 50X model series	MMT-393	\$116.00
6 mm cannula/23" (58 cm) tubing (10/box)		

The Silhouette® Infusion Set [℞]

The Silhouette® infusion set offers comfort and flexibility for active pumpers. With a variable-angle (35°) cannula, the Silhouette® infusion set lets you choose your insertion depth. Works with the optional Sil-serter® (sold separately).

MiniMed Paradigm® Silhouette®

The Online Store at www.medtronicdiabetes.com

Our entire line of supplies and accessories for better diabetes management is available at our online store. Visit us at www.medtronicdiabetes.com and register today to benefit from free shipping and convenient home delivery.

Online Store FAQ

Q. Will my insurance company be billed for my order?

A. Yes, but only for covered supplies. We will charge your credit card or ask that you send a check for the remainder of your order. Most private insurance, Medicare and state Medicaid is accepted for covered items. Your insurance plan will be billed for covered items.

Insurance usually covers insulin pump supplies such as reservoirs, infusion sets, syringes, as well as some testing supplies. It usually does not cover tape, skin prep, books, software and accessories. Please contact your insurance plan to learn whether they cover a particular product.

Important Billing Note: Always let us know if you have recently changed your insurance carrier, billing or delivery address in order to help prevent billing and delivery delays.

Q. How do I know when my order has shipped?

A. The online store sends an e-mail when your order ships. To see your shipping status for any order at any time, log on to the store at www.medtronicdiabetes.com

Q. I forgot my online password. How do I get it?

A. If you know your online store username, you can enter your username and the online store will look up the reminder question you entered when you first registered. If you do not know your username, please call the Supply Order Services Department (7:00 AM to 4:00 PM PST Monday through Friday) at 1-800-646-4633, and select option 2.

Q. Can I still order by phone?

A. Yes. Please contact the Supply Order Services team at 1-800-646-4633 option 2, we can be reached Monday through Friday from 7:00 AM to 4:00 PM PST. However, if you have Internet access, we recommend using our online store. The online store offers free shipping with every order. Plus, it is always open, it can send automatic reorder reminders and it remembers your shopping list, billing and credit card information.

Solving the puzzle of your personal glucose patterns

CareLink™ Personal software is a free web-based program that allows you to generate reports that contain your insulin pump, glucose sensor, and meter* data. This one-of-a-kind resource gives you and your healthcare provider clear insight into your personal glucose patterns for maximum effectiveness of your therapy.

Simple and easy 3-step approach:

- 1 Register at <http://carelink.medtronicdiabetes.com>
- 2 Upload your information
- 3 Review the reports and share them with your healthcare provider

CareLink™ PERSONAL

THErapy MANAGEMENT SOFTWARE FOR DIABETES

* Software is compatible with most major blood glucose meters.
